JOB PRINTING.

The News Job Department has been thoroughly supplied with every needed style of Types, and every manner of Job Work can now be done with neatness, dispatch and cheapness. We can furnish at short notice

BLANKS, BILL HEADS, LETTER HEADS, CARDS, PROGRAMMES, HANDBILLS, PAMPHLETS, POSTERS, CHECKS, DRAFTS, &c.

ANN ELIZA, Brigham Young's nineteenth, who is hunting a divorce in the Utah Federal Courts, rusticates in New York and plies telegrams toward the setting sun about her \$500 month of alimony and fees, while the Apostle cools his early matrimonial ardor in jail for disobedience to the decree of the court. Matrimonial affairs will get awfully tangled now and then in Mormondom as well as in Beech-croft.

We suppose the negroes of the South will take the word of Ben Butler as to the powers that can exercise under the civil rights bill. Says he: "It gives the negroes no rights in drinking saloons or barber shops. The bill only re-asserts rights conferred by the common law, and simply gives colored men easier means of securing them." Had Butler been enabled to carry out his wishes he would have brought the working of this infamous bill into the most intimate relations of life.

The Usury Law enacted by the late General Assembly went into effect on the 24th inst. This law makes the legal rate of interest 6 per cent., except in such cases as the parties to a transaction may agree to make it 8 per cent., with forfeitures and penalties attending any violation of the law. We have doubted the wisdom of this measure, believing that it would work much harm to that class of our citizens who were intended to benefit, but now that it is in operation we earnestly hope that we may have been mistaken, as none would rejoice more sincerely to see it work good to the impoverished interests of North Carolina than ourselves.

VIRGINIA AND THE MECKLENBURG CENTENNIAL CELEBRATION.

The following preamble and resolutions, recently adopted by the House of Delegates of the Virginia Legislature, have been transmitted to Governor Brogden, and we take pleasure in giving them publication: WHEREAS, The State of North Carolina proposes to celebrate the centennial anniversary of her Mecklenburg Declaration of Independence, in May of this year, and whereas Virginia, remembering the valorous self-sacrifice, and patriotic part borne by the people of "the Old North State" in the revolution of seventeen hundred and seventy-six, and the close and cordial relations always subsisting between the two Commonwealths, cannot permit this opportunity to pass without an expression of heartfelt approval; therefore

Resolved, That the House of Delegates of Virginia, "That all citizens of the Old Dominion" who may find it convenient to participate in the ceremonies of this memorable historic occasion, will carry with them a representative responsibility, and be expected to blend Virginia's sisterly sympathy and good will with North Carolina's rejoicing.

Resolved, That a copy of this resolution be forwarded to the Governor of North Carolina.

CHARLES F. HARRIS, ESQ.

The last number of the State Agricultural Journal contains the salutatory of this gentleman as Editor of that paper, he having been selected by the State Grange under an agreement between the Grange and the proprietor of the Journal. Captain Harris is already known in the State as a forcible writer, and we have no doubt he will add new laurels to his name in the fresh fields in which he has entered, and we need not add that we welcome him to Raleigh. Says he in his closing remarks:

"The underlying principles of the Grange are easily understood. They are straight-forward and practical. The Grange aims at no Utopian state of society. It does not pursue chimeras. It takes the basis of society as it present constituted, as right and permanent. It merely seeks to bring into recognition that interest of the country—the producing interest—upon which all other interests depend, but which itself has hitherto been entirely ignored. "Entertaining these views, and with the kindest feelings toward all, without a shade of hostility to the individuals composing any corporation, association, society, or party whatever, and hoping to be able (with the assistance of friends) to assist in promoting the farming interest of North Carolina, the Editor enters upon the duties before him with the desire to do the "greatest good to the greatest number."

In a recent lecture at Cork, John Mitchell said:

"The London Times indeed has discovered a disgraceful crime of which I have been guilty—viz: that I was a Southern Confederate during the war in America. As to this last charge I own the soft impeachment. I was a Confederate, and so were all the best men that met in America. [Hear, hear!] My three sons served in the Confederate army, and two of them fell in battle. I am not such a craven recreant as to affect to be ashamed of that cause."

On Saturday last this brave and true man died in Ireland. He had crossed the ocean in a weak state of health to stand for Parliament at the request of his countrymen, and though he was twice elected there was no probability of his being allowed to take his seat. With an exchange, we say there was nothing low or groveling about John Mitchell. The people of the South respected and admired him while living and sincerely mourn his death.

The South, which is so much maligned, does itself injustice in allowing slanders to be perpetrated at the expense of the intelligence of her people. They will compare favorably with the best classes of the best people of the best country that the sun in its journey shines on; and there is no occasion for our using any apologetic tone for either the ignorance that it said to darken the minds of her children, nor the lukewarm who are reported to infect her borders. The ignorance of the South is better than the two-fold ignorance of the North and the lukewarm of the South are saints by comparison with the thieves whom the North has sent to harry and ruin our conquered section. We have stood patient and submissive long enough. Let us tell the plain truth in behalf of our people and our section.

The Petersburg Index-Appeal thus concludes an able article on the plea set up by the people of the North that they are the lights of learning and dictionary fabricators, as well as the patterns of sobriety, virtue, purity, truth, loyalty and such religion as we see exhibited in the trial now pending of the presbyters of Plymouth, and this too, at the expense of the South, as these people claim that the proportion of the illiterate was far greater in the South, especially in Arkansas, Tennessee, North Carolina and Virginia, than among their own more enlightened people.

GOVERNOR BROGDEN.

"Whatever thy hand findeth to do, do it with all thy might, for there is no work nor device, nor knowledge, nor wisdom in the grave whither thou goest."

Governor, these are words of truth; therefore we wish to keep you out of the grave a Virginia corporation is preparing for the grand internal improvement system—as Senator Bell said in his able speech in the Senate—of our Caldwell, our Gastons, our Dulleys, our Moreheads, our Swains, our Grammars, our Camerons, our Stranges, our Merces and hundreds of others of our citizens, if less brilliant not less enthusiastic in maintaining the honor of North Carolina. Will you snatch from this grave, ere it closes forever over you, their most glorious work? Will you have their road, while you possess the power, restored to its original condition, or will you be swallowed up with it? Governor, is it not a monstrous iniquity that men representing a small corporation in a neighboring State should steal into our State at night—men resembling other animals of prey, whose instinct is to avoid daylight and break the centre of our greatest road, the highway of our trade from the seaboard to the mountains? This too in opposition to more than three-fourths of the members of the Legislature, representing with yourself the prosperity and honor of our people.

Governor, this is not a political question, it is something high above party squabbles; it will concern all the future of North Carolina. Do you intend, then, to allow two Judges of the Supreme Court and a small Virginia corporation to govern our State? We ask this question with all deference and respect. Shall the system of our fathers prevail? Shall their favorite schemes of improvement be maintained and handed down unimpaired to our children? Shall North Carolinians rule North Carolina, or Virginia corporations and rings dictate her course? Why this hot haste for two Judges of our Supreme Court to undo all we loved best and thought wisest of our fathers' actions? Was not their work well done, amid trials and difficulties we cannot fully comprehend in this day? See, they could exclaim, we have laid down the backbone athwart the State, now join it with your iron ribs. Yes, Sir, they witnessed their engines running "like the lightnings" nearly the length of North Carolina, and pronounced their work well done. Governor, is there a mental slothfulness following public men in high positions in this State which surp-

ders to others the right of action, and retains for them only the slave's necessity for obedience? We have seen this somewhere or something like it. Change, change is the constant cry. Governor, stop it. Are you willing to be a tame accessory before the fact of the assassination of North Carolina? We think not. Prove you are not.

(For the Daily News.)

Messrs. Editors:—In your article in the News, of this date, you ask "What will Governor Brogden do?" "What will the change of gauge of the North Carolina R. R., by Buford & Company, from Virginia. We would now politely ask what can he do? You are doubtless aware that a dollar was appropriated by the Legislature for the purpose of enforcing the law, touching that matter. We fully concur with you, that "something" should be done and must be done, even to tearing up the rails, before our people will be satisfied, for such unwarrantable interference in their affairs. No, they will never justly submit to such an insult from a corporation or ring, from a neighboring State. But tell us how the Governor can punish the offenders or remedy the evil complained of without money. He is, evidently, telling you in sympathy and feels keenly this insult to our State, but we repeat, tell us what he can do with his hands tied.

WAKE, Raleigh, March 25th, 1875.

The diocese of Illinois, having been twice refused the assent of its bishop-elect, probably will not make any choice at present. Dr. DeKoven, it is understood, will be called to the rectory of St. James' Church, Chicago, vacated by the Rev. Mr. Brooks, and it is thought that he will accept. A correspondent writes that Dr. DeKoven himself never expected to be confirmed by the standing committee. He is neither cast down nor very confident. He simply stands aloof, regarding himself as an atom of great principle. Having come to the conclusion that he was right in accepting the nomination for the bishopric of Illinois, he will submit to be made a battler and shuttlecock of so long as the principles in dispute are undecided. There is a strong feeling in favor of again electing Dr. DeKoven, but it is not likely that the diocese will be allowed to remain vacant.

Dear friends! The other day when the Appropriation bill was before the United States Senate, two Senators, favorable to the item making an appropriation of \$1,500,000 for building levees of the Mississippi river left the chamber for the purpose of taking a drink, and during their absence the item was stricken out, and Louisiana may be considered \$500,000 worse off. Had either one of them been present, the item would have stood. The New Orleans Republican says these are the dearest drinks on record.

AN IMPORTANT FACT.—The voluntary testimony of thousands establishes beyond all doubt a fact that of vital importance to the sick and debilitated, viz: that Host's Stomach Bitters is an absolute specific for all cases of indigestion, liver and kidney complaint, biliousness, mental depression, and all diseases of the stomach, bowels, and blood. The undigested food actually present in these cases causes the acid in the blood, and the acid in the blood causes the symptoms, instead of removing them. The Bitters, by promoting digestion and preventing fermentation, headache, indigestion, and all other ailments, and by restoring the system to its normal condition, it is a means of restoring strength and cheerfulness.

POLISH OILED SURFACE AND Preserve the Leather!

Warranted to Excel All Others or Money Refunded!

The only Blacking that will polish on leather and make it pliant, requiring less quantity and time to produce a perfect gloss than any other. The brush to be used immediately after putting on the Blacking. A perfect gloss on this will not only give white clothes, we guarantee it as represented, and ask for patronage strictly on its merits.

In testing our Blacking use a brush that has no other on it. Prices as low as other Blacking. Liberal arrangements made with merchants and wholesale dealers. We are the true friends of the Blacking, and have tested our Blacking thoroughly and speak for the Blacking. These testimonials are from gentlemen well known to the public.

Respectfully, H. A. REAMS & CO., Manufacturers, Durham, N. C.

New York, Dec. 15, 1874.

Messrs. H. A. Reams & Co., Durham, N. C. Gentlemen:—I have used the Blacking manufactured by you, and pronounce it unsurpassed for preserving the leather, producing a better polish than any other, with less labor.

Respectfully yours, GEO. F. BROWN.

Durham, N. C., Dec. 4, 1874.

For twenty-five years I have been using Mason's Blacking. When offered any other I have invariably replied, "Mason's is good enough for me." Repeated trials of Reams' Polish have convinced me of its superiority over my hitherto favorite.

W. R. HUGHES, M. D.

New York, Dec. 8, 1874.

A single trial is all that is necessary to convince me that the Durham "Reams' Polish" is the best. Without doubt it will soon have the largest sale of any Blacking made.

J. HOWARD WAINWRIGHT.

Wake Forest College, June 17, 1874.

We have used the "Durham Root and Shoe Polish" and think it superior to any Blacking we have ever tried. Indeed, we believe that it is all that the manufacturers claim for it.

Durham, N. C., Dec. 3, 1874.

The Durham Root and Shoe Polish is a marvelous Blacking. It is superior to Mason's or any French Blacking I have ever used.

S. F. TOMLINSON.

Durham, N. C., Dec. 3, 1874.

I take much pleasure in saying that I am constantly using Reams' "Root and Shoe Polish," and that I can unhesitatingly recommend it to the public, as superior to any Blacking in use. No gentleman's wardrobe is complete without it.

J. S. CARR.

Durham, N. C., Dec. 3, 1874.

Having used the great and unequalled Reams' "Root and Shoe Polish," we feel that we cannot too highly recommend it. It is all that the proprietors claim for it, and its merits must soon endear it to the patronizing public.

THE DAILY NEWS.

SATURDAY, MARCH 27, 1875.
NORTH CAROLINA.

Kinston is moving towards the establishment of a cotton factory. Caldwell signs that single cussedness has become popular in Charlotte.

By a careless negro leaving her child alone, it was burned up at Enfield Tuesday.

The Oxford orphans, twelve in number, gave a concert in Salisbury on Saturday night last.

The sessions of the Court of the Old Mayor of Wilmington, now holding over, are called "the Unsupers' Court."

Caldwell, of the Charlotte Observer, signed a big few days since. He offered to sell him a con skin whilst he (Caldwell) was in the midst of the elaboration of a magnificent idea.

The next number of the *Charlotte Herald*, published at Goldsboro, will contain the portrait of Gov. Wm. A. Graham. The *Messenger* says the portrait is exceeding life-like.

The Salisbury *Watchman* records the fact that a son of Mr. J. M. Harrison, of that county, was killed Wednesday by some frightened horses. The youth was some ten years of age.

The Friends of Temperance of LaGrange had a big anniversary celebration last week. Speaking, eating and jollifying was the order of the time. Nothing was said about drinking, and we must suppose that was a side play.

The Central Executive Committee of the Charlotte Centennial Celebration is working vigorously to further the objects of the celebration and to make it every quarter of the State the liveliest interest in the affair. We wish them the greatest success.

A man and wife from the county, putting up at the Parrell House, Wilmington, were approached by a man in the street a day or two since by the name of "Excelsior," when the following colloquy ensued:

G. Z. — Well, Judge, the only objection I have to you is the brevity of your speeches.

C. — Sir, the brevity of my speeches, in my estimation, is only exceeded by your modesty!

For the benefit of those unacquainted with the facts, we would state that the Senator is somewhat noted for his long-winded arguments.

The Winston *Sentinel* thus speaks of an "indignation meeting" in Yadkin county over Representative Elliott. "A number of Radical officials and hangers on in Yadkin county, who felt indignant because W. B. Glenn, Esq., could stand the Radical party, and endorsed the Elliott Rights bill by making it a law called an indignation meeting for Tuesday of Court week. The amount of indignation was immense. *See* our issue of Tuesday."

The negative, as we are informed, was not put to the house, and of course the denunciation was unanimous. From this meeting one could judge that the office holders were madder than the rank and file of the party. The people endorse Glenn.

Pardoned and Released from the Penitentiary.

Our astonishment was great, yesterday morning, to meet Joseph D. Elliot, the young man who, in February, 1874, killed Charles T. Neal, the officer of the St. Charles Hotel in Statesville. After remaining in jail at that place for more than six months, his case came to trial at Wilkesboro last November, and he was convicted of murder in the second degree and sentenced to five years' imprisonment in the Penitentiary. He had served about four months of this term, when he was pardoned on Tuesday by Gov. Brogden. He passed up the Statesville road yesterday afternoon, on his way to Hickory, where his parents are now living.

This pardon was secured through the persistent efforts of Lieut. Governor Armfield, Elliott's leading counsel. All winter has Col. Armfield been using his best exertions to obtain a pardon for his client. In addition to a largely signed petition which was sent down from Statesville, Col. Armfield got up one in Raleigh, which was signed by a majority of the members of the House, by Attorney General Hargrave, United States District Attorney R. C. Shuford, Secretary of State W. H. Howerton, and other prominent persons. Col. Armfield made several efforts to induce Gov. Brogden to sign the pardon, but all of these were unavailing, until Tuesday, when he waited on him in company with the Attorney General, Hon. W. N. H. Smith, and others. The Governor was still stubborn, but finally yielded to the urgent solicitations of the gentlemen, and signed the paper. Col. Armfield then repaired with a carriage to the Penitentiary and called for Elliott, to whom he communicated the joyful intelligence. This was received by the prisoner, of course, with every demonstration of joy. The tidings were as unexpected to him as they were welcome, and he could hardly contain himself, so highly was he elated at the idea of being once more a free man. The counsel and client then proceeded to the North Carolina Depot, took the Western bound train and arrived in this city yesterday morning in company, having missed connection with the Western North Carolina train at Salisbury.

Young Elliott is looking quite well, and his spirits are high. He converses freely and cheerfully, and seems to have lost his own will. Except the absence of a remarkable neatness of dress, which was one of his characteristics, we do not observe that the appearance or manner of Elliott has changed from what it was before he slew young Neal. He, of course, has a heart overflowing with gratitude to Col. Armfield, who has done so much for him and to whom he is more indebted than to all others, for life and liberty. We are really glad that Elliott is once more free.

His may have been "a grievous wrong, but grievously hath he atoned for it." His further punishment will not awake young Neal to life, and cannot be productive of any good. — *Charlotte Observer of Thursday.*

Gov. Hendricks of Indiana, prominently mentioned as the next Democratic candidate for the Presidency, has engaged the front end of a room at one of the principal hotels here for the entire session of the next Congress. This fact has awakened the few aspirants for the honor to a realization of the nearness of the time when the Democratic National Executive Committee will meet and decide upon the place where the nominating convention shall be held. Governor Hendricks, it is said, means to take the field in person, and looks to the Democratic influence in the next Congress to insure his success. *Washington dispatch in New York Herald.*

Mr. Andrew Johnson did not disappoint the expectation of the country in his very forcible speech upon the Louisiana resolution, delivered in the Senate yesterday. He could hardly fail to command attention in any case, and he has this advantage over every other Senator, that having himself held the Presidential office, he has had to deal with conflicts and disturbances in the States, very similar to those in which his successor has so lately blundered. — *Philadelphia Times.*

The Cincinnati *Gazette*, after reviewing the prospects of all the Democratic candidates for the Presidency, concludes that the chances of Hon. Samuel J. Randall are the best, and, if elected, he would be more generally satisfactory than any other member.

CONSUMPTIVES. TAKE NOTICE.—Every moment of delay makes your cure more difficult, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup, as a cure for consumption, exceeds all that can be brought to support the pretensions of any other remedy. Dr. Schenck's Pulmonic Syrup, containing the certificates of many persons of the highest respectability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup alone has cured many, and these cures will show, but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are, according to directions, Dr. Schenck's Syrup of Sassafras, and Dr. Schenck's Syrup of Wild Cherry. These medicines are sold by Dr. Schenck, or by any of his principal agents, Corner Sixth and Arch Sts., Philadelphia, every Monday, where all letters for advice must be addressed. Feb 1-D&W

NOON DISPATCHES.

Civil Rights in New Jersey—Vessel Damaged.

TRENTON, N. J., March 26.—The proprietor of a billiard saloon has been arrested for refusing to allow negroes to play. The U. S. Commissioner discharged the prisoner and dismissed the complaint. The Commissioner says it is true the public may visit a billiard saloon, so they may go to a store, but every one cannot play there as every one cannot buy in a saloon. The proprietor may select his customers. Every place which is accessible to all is not necessarily a place of public amusement. To say every body can go to a billiard saloon does not determine its character. A license is taken out for a peddler's right, but it does not thereby become a place of public amusement, there is nothing in the license, an idea by which we can determine the true nature of the place, a licensed place may still be so regulated as practically to exclude the public.

It is asked what is a billiard saloon if it is not a place of amusement. I answer at best and only in a limited sense or in a qualified manner, can it be called a place of public amusement if it is the private business of a private party, and conducted as it is the keeper, it is no more a place of public amusement than a drinking saloon. Evidently as to the latter no man has a right to go and take a drink without leave of the proprietor. The applicant may be refused and driven away, for reasons best known to the owner, and which he is not bound to disclose. The Civil Rights bill has nothing to do with, and was intended to have nothing to do with such places.

QUEENSTOWN, March 26.—India, from New Orleans, was damaged. She lost mizzen, mast and rudder. She will be towed to Liverpool where she will discharge and repair.

Death of Col. Richard Thomas—His Past Life.

BALTIMORE, March 26.—The *Port Tobacco Independent* says: "Col. Richard Thomas, generally called Madam Zorana, died suddenly last Wednesday night at the residence of his brother, James Thomas, St. Marys county, Maryland. Colonel Thomas became very conspicuous in the early part of the late civil war by the capture of the Steamer St. Nicholas. He took passage in the steamer at Baltimore, disguised as a French lady at night, assisted by a few of his men on board, and arrested the Captain and officers of the Steamer and ran her to Fredericksburg, Va. After the war he resided some years in Paris, but returned to this country about two years ago.

Miscellaneous Items.

PHILADELPHIA, March 26.—The Superintendent of the Police has notified the Irish Committee that the parade in memory of John Mitchell next Saturday will not be allowed, the violation of the law prohibiting any such demonstration on the Sabbath.

MIDNIGHT DISPATCHES.

Adjournment of the South Carolina Legislature—Gov. Chamberlain Exercises his Veto Power.

CHARLESTON, S. C., March 26.—The Legislature adjourned *sine die* to-day. Gov. Chamberlain vetoed the bill to declare the true intent and meaning of the funding act of 1873. The main ground of the veto is that the bill is not in harmony with the settlement of the public debt under the funding act, which the Governor in accordance with his pledges feels bound to sustain.

The vetoed bill proposed to require the interest on the old bonds and stocks of the State to be funded up to the date of the funding act, and bonds and stocks, while under the funding act the interest is funded only to January, 1874, and is paid in money from that date.

Gov. Chamberlain declares that any such change would retard the funding or consolidation of old debts now going on with gratifying rapidity. The Governor also says that the duty of standing firmly by the present settlement of public debts is paramount to every other consideration. The veto was sustained after a sharp debate, all the Conservatives but one voting against the bill.

General Trade Suspended in Observation of Good Friday.

NEW YORK, March 26.—The stock and gold exchanges are closed to-day, and among the brokers the day is as closely observed as if it were a legal holiday. The banks and private banks are obliged to keep open, but they are doing little business. There are some counter orders for government bonds, and something has been done in foreign exchange, all on the basis of yesterday's prices and rates. Borrowers of money yesterday made arrangements for loans until Saturday. Money and mercantile paper is as last quoted.

The Murder of Mrs. Bingham—Lynch Law Threatened.

BOSTON, March 26.—George Pemberton, the accused murderer of Mrs. Bingham, was arraigned in the East Boston Municipal Court to-day, and fully committed for murder. An immense crowd was in attendance, and the prisoner was escorted to and from the court room by a guard of 40 police. An intense excitement exists in East Boston, and a strong inclination to appeal to the lynch law seemed to pervade the masses.

Republican Candidate for Governor of Rhode Island.

PROVIDENCE, R. I., March 26.—The Republican Convention, in session all night and until 7 o'clock this morning, nominated Leppett for Governor by one vote. The cause of the struggle was the opposition of the prohibitionists to Leppett. The prohibitionists will hold a Convention Monday.

The Ice Gorges.

MACHUNK, March 26.—The two dams here are still covered with fifteen inches of ice, and dam at Whitehaven, the largest on the Lehigh river, is filled with thousands of logs and twenty inches of ice. It rained two hours this afternoon.

LOUISIANA TO HAVE NO DISTRICT JUDGE.

WASHINGTON, March 26.—It was finally decided in the Cabinet to-day that Louisiana can have no Federal Judge until the next meeting of Congress. Bristow's resignation was announced in premature, but it is known by the President, but it is known the announcement was only premature.

Weather Probabilities.

WASHINGTON, March 26.—For the South Atlantic and Gulf States partly cloudy and continued warm weather with variable winds mostly from the South and West and a slight change in the barometer and light rain west of Georgia. For Tennessee and the Ohio valley light rains.

Alleged Canal Frauds to be Investigated.

ALBANY, N. Y., March 26.—The Senate has adopted the resolution appointing a special commissioner to investigate the alleged canal frauds.

A TIDIOUS COURT CASE.

Elkton, Md., March 26.—A case just set off by the Circuit Court of Cecil county for forty-seven years. The judgment of the Circuit Court was reversed by the Court of Appeals in the first place, the case remanded, and it has been hanging in the Circuit Court of Cecil county ever since, till settled by compromise by the heirs of Thomas Ricketts paying \$100. The expenses of the case in the Court of Appeals cost the defendants some \$200, and other expenses incident to the suit will swell the sum to \$300, which Thomas Ricketts was willing to pay, but could find no one to whom he could legally pay it.

A STRANGE OMISSION.

A man named Evans was arrested in New York on Thursday, charged with personating a United States marshal. This arrest brought to light an omission in the laws of the United States which may prove very serious. After searching carefully through the revised statutes it was discovered that there was no law under which a man could be punished for personating a deputy United States marshal, and Evans was discharged.

Stay in New Mexico they seem to be waking up to the existence of one day in the week which should be observed as the Sabbath.

In a recent number of the *Santa Fe Mexican* we find a call for a public meeting which reads: "Ladies and gentlemen, merchants and mechanics, orthodox and heterodox, Jew and Christian, Mexican and American, civil and military, everybody interested in the closing of the stores one day in seven are invited to the adjourned meeting to-night at 8 o'clock at the Presbyterian church."

One of the highest compliments ever paid to a literary journal has been paid to the *London Athenaeum* by the Messrs. Johnson, the geographical publishers of Edinburgh, who have entered suit against the *Athenaeum* for an unfavorable review of a new atlas and geography. We suppose that a Scottish lawyer would not be any too anxious to find a verdict against the *Athenaeum* which would allow it to pay such a bill.

Old John Bender has confessed. He says his son and daughter committed all the murders. This is even a more a table sacrifice than Artemus Ward was willing to make. He only offered up his wife's relations.

The Irish societies of New York and neighboring cities are preparing for public meetings to express regret for the death of John Mitchell.

The suffering from the recent Tornado in the South appeals to the charitable throughout the land.
